Subject: Offer of Internship – AI & Machine Learning Project Intern

Dear Ankit,

We are pleased to inform you that you have been selected for the position of AI & Machine Learning Project Intern at EmPyrean Consultancy Services Pvt Ltd (ECS). Your interest and potential in Artificial Intelligence and Machine Learning impressed us, and we are excited to welcome you to our team.

As part of this internship, you will work on developing an AI-powered software solution for object readiness detection. The project will involve designing and developing machine learning models where datasets will be uploaded and used for training the AI model. The software will allow users to upload object images and automatically detect.

Internship Details:

Position: AI & Machine Learning Project Intern

Mode: Hybrid

Duration: 3 Months

Start Date: 1st June 2026

Reporting To: Sumit Sharma, Head of Training

Key Responsibilities

1. Design and develop machine learning models for any object readiness detection.
2. Prepare, manage, and upload datasets for AI model training.
3. Develop software that can analyze uploaded object images and predict readiness.
4. Test, optimize, and improve AI model accuracy and performance.
5. Collaborate with the technical team for software integration and project improvements.
6. Research and implement modern AI and computer vision techniques.
7. A datasheet to be prepared by entering daily tasks, challenges and solutions.

Upon successful completion of the internship and satisfactory performance, you will be awarded a Certificate of Internship from **Empyrean consultancy services Pvt Ltd (ECS)**, recognizing your contribution and learning.

We welcome you to ECS team and wish you a rewarding and enriching internship experience with us.

Authorized Signatory

Shivesh Gaur

CEO
